A RACING CHALLENGE THAT "DRIVES" UP YOUR EMOTIONS!

A NEW ENTERTAINMENT MACHINE THAT SURPASSES
THE CONVENTIONAL CONCEPT OF WHAT A GAME SHOULD BE!

Super Monaco GP

DELUXE TYPE

◆A HIGH-ACTION SIMULATOR THAT FEATURES "TOTAL BODY IMMERSION."

THE ULTIMATE IN MOTOR SPORTS MACHINES, SEGA'S F-1 is the result of high technology and the embodiment of the racing spirit.

You'll be on your feet and applauding when you actually see the unbelievably realistic scenes, and experience for the first time the utmost in excitement and thrills that come from participating in the ultimate in big time racing competition...truly a dream come true. All the inherent aspects of an authentic F-1 race that up until now only existed in the player's imagination are at last yours, thanks to the know-how of SEGA. You'll find the SUPER MONACO GP to be a surprisingly sophisticated entertainment system that exceeds your wildest fantasies.

DELUXE TYPE

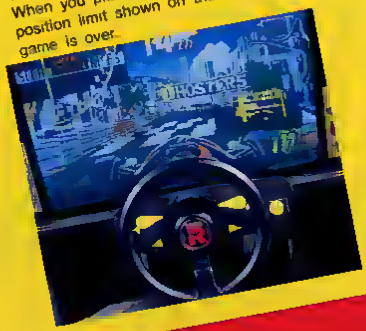

Super Monaco GP

A NEW GAME SYSTEM INCORPORATED IN THE "SUPER MONACO GP!"

FEATURES

- The Air Drive System, a first in the industry, introduces gamers into a new area of experience through its high response function
- The 4-channel simulated sound creates such an air of realism that it will have the player's hair standing on end
- Based on an innovative concept a Fresnel lens is adopted for the 26 inch monitor that enables a superwide game picture, a real rarity among today's conventional game screens
- A new cabinet design modelled after the latest and fastest F-1 machine, makes you feel as if you are a top driver participating in an actual race
- SEGA through extensive knowledge in producing its renowned series of simulator machines, has added another dimension to this art form. This, coupled with unique ultrareal graphics, enables you to physically experience the maximum in road racing thrills
- A rearview mirror function further enhances the simulation realism by allowing you to see the cars behind you
- Spins and crashes, a special attraction, are created by means of state-of-the-art graphics and a seat vibration effect, as well as by the 4-channel sound system and a highly sensitive steering wheel.
- A steering shift system has been adopted which is identical to the most advanced model of the F-1, a feature that is sure to please even the most particular ardent enthusiasts. It incorporates three types of shifts that can be selected in accordance with the player's technique. i.e., 4 & 7 manually operated and automatic gearshifts
- This is a full-fledged racing game in which competition takes place on both the qualifying lap and actual courses. When you place lower than the position limit shown on the screen, the game is over.
